## **NH DHHS COVID-19 Update – May 17, 2020**

**Concord, NH** – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Sunday, May 17, 2020, DHHS announced 41 new positive test results for COVID-19. There have now been 3,596 cases of COVID-19 diagnosed in New Hampshire. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there is one individual under the age of 18 and the rest are adults with 37% being female and 63% being male. The new cases reside in Rockingham (9), Hillsborough County other than Manchester and Nashua (6), Carroll (3), Belknap (2), Strafford (2), and Merrimack (1) counties, and in the cities of Manchester (13) and Nashua (4). The county of residence is being determined for one new case.

Twelve new hospitalized cases were identified for a total of 359 (10%) of 3,596 cases. Seven of the new cases have no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has also announced one additional death related to COVID-19 in an adult female from Hillsborough County who was 60 years of age or older. We offer our sympathies to the family and friends.

### **Current Situation in New Hampshire**

**Total Current COVID-19 Cases  
in New Hampshire  
as of 5/17/2020  
(n=2,156)**

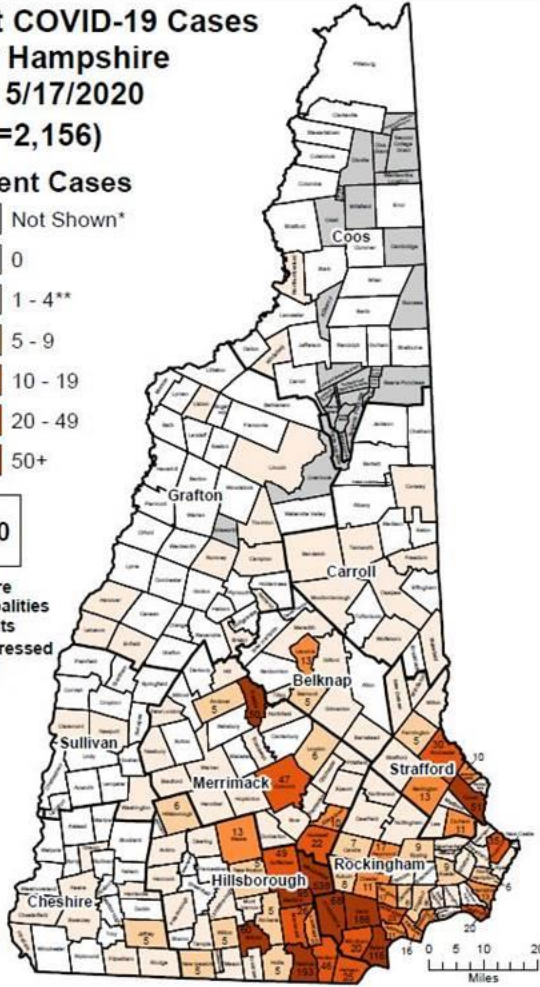

**Current Cases**

**Cases under investigation, 10 town unknown**
