CONCORD, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Monday, May 4, 2020, DHHS announced 72 new positive test results for COVID-19. There have now been 2,588 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are four individuals under the age of 18 and the rest are adults with 48% being female and 52% being male. The new cases reside in Rockingham (17), Hillsborough County other than Manchester and Nashua (13), Merrimack (5), Strafford (2), Belknap (1), Carroll (1) and counties, and in the cities of Manchester (22) and Nashua (10). The county of residence is being determined for one new case.

Four new hospitalized cases were identified for a total of 286 (11%) of 2,588 cases. Six of the new cases have no identified risk factors. Community-based transmission continues to occur throughout the State and has been identified in all counties with cases. The remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

Current Situation in New Hampshire
