NH DHHS COVID-19 Update – August 14, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Friday, August 14, 2020, DHHS announced 43 new positive test results for COVID-19. There have now been 6,964 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are eight individuals under the age of 18 and the rest are adults, with 43% being female and 57% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (8), Rockingham (7), Cheshire (3), Strafford (3), Belknap (1), and Grafton (1) counties, and in the cities of Manchester (13) and Nashua (7).

One new hospitalized case was identified for a total of 706 (10%) of 6,964 cases. Five of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most have either had close contact with a person with a confirmed COVID-19 diagnosis or have recently traveled.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Hillsborough County, 60 years of age and older
