

NH Community Health Workers: *Register Now!*

Increasing Vaccine Confidence for CHWs & their Communities Virtual 4-Part Series

June 23 & 30, July 7 & 14
12:00-1:00pm

Overview and Objectives

This virtual series is designed to increase CHW knowledge and confidence around COVID-19 vaccines. CHWs will hear from experts within their own communities and learn tips and Motivational Interviewing strategies to have difficult conversations with their clients about the COVID-19 vaccine. The final session will include a panel of CHWs who will share what has and has not worked for them when communicating with clients in their own communities.

Participants will:

- Learn basic facts about the vaccine
- Gain an overall understanding of vaccine roll out efforts in NH
- Learn how to help address common myths and misinformation
- Learn strategies for successful messaging to communities
- Gain insight into peer experiences across the state
