

Community Connections

Co-Hosted with

**Tuesday, August 6th
9am - 10am**

In August we'll engage in an open dialogue between participants and NCHC staff in which we hope to hear about the experiences of Littleton area community members in their many roles as individuals, family members, and business owners. Areas of focus will include feedback on access and quality of physical and behavioral health services, substance misuse treatment and recovery supports, supporting healthy youth development in your community, and overall feelings regarding the current status and future aspirations for your community.
