NEW FUNDING OPPORTUNITY SYNOPSIS Title: HRSA, Federal Office of Rural Health Policy Rural Health Care Coordination Program

Grant: Rural Health Care Coordination Program

Due Date: Proposal due March 12, 2020

Purpose: The purpose of this program is to support rural health consortiums/networks aiming to

achieve the overall goals of improving access, delivery, and quality of care through the application of care coordination strategies in rural communities. Applicants are required

to coordinate the health care delivery services in rural communities through the following four focus areas: collaboration, leadership and workforce, improved

outcomes, and sustainability.

Funding Request: 10 awards; up to \$250,000 per year for three years

Eligibility: Eligible applicants shall be a rural public or rural nonprofit private entity; shall represent

a consortium of 3 or more health care providers; but provide programs that serve

populations residing in HRSA designated rural areas.

North Country Health Consortium New Program Opportunity Matrix Title: HRSA, FORHP, Rural Health Care Coordination Program

Does this opportunity support the NCHC Mission (NCHC leads innovative collaboration to improve the health status of the region) X	Title. HNSA, FORHE, Nurai Hea	Yes	No	Comments	
Does this opportunity support the NCHC Mission (NCHC leads innovative collaboration to Improve the health status of the region) The purpose of this initiative is to provide care coordination to create smooth transitions as patients interact with various providers and services and to allow for holistic patient care and patient engagement in care management.	Mission	103	110	Comments	
leads innovative collaboration to improve the health status of the region) coordination to create smooth fransitions as patients interact with various providers and services and to allow for holistic patient care and patient engagement in care management. Key Issues: Does the initiative support any of the following key issues: (Check all that apply) 1. Workforce education and development 2. Public health including emergency preparedness and wellness programming 3. Community substance abuse prevention 4. Access to health services for underserved populations including Primary Care, Oral Health and Mental Health 5. Advocacy for rural health issues including workforce development, funding, technology, population-based health and quality improvement Role of Consortium: Does the initiative support any of the following roles: (check all that apply) 1. A vehicle to maximize resources, to scan for, write, receive and manage grants 2. A platform for communication and collaboration 3. Provide a forum for member organizations to work together for regional health improvement 4. Provide a no poportunity for honest and open communication among members 3. Support member organizations in regional problem solving and program development 4. Foroide a voice for political advocacy on behalf of the member organizations 5.
