This course is designed to prepare law enforcement officers to recognize the threat of an active suicide bomber through the recognition of Suicide Bomber Improvised Explosive Device (SBIED) components and suicide bomber behavioral indicators. The course provides multiple response strategies to effectively interdict a suicide bomber. Additionally, the ILERSBA

course teaches law enforcement officers how to establish response priorities when responding to a suicide bombing post-blast scene, given the unique hazards associated with such an incident. Recommended Audience: Law Enforcement

### **MGT-416 Continuity of Government Operations Planning for Rural Jurisdictions**

**Bethlehem NH**

June 29, 2022 0800-1700

<https://ruraltraining.org/course/MGT-416/?scheduled=true&id=5565>

This eight-hour course is designed to help government officials and emergency responders from rural communities in the development of plans that will ensure the continuity of essential government functions across a spectrum of emergencies. History demonstrates that disasters and emergencies often interrupt, degrade, or destroy local government's ability to perform essential functions. This is especially true in rural communities where resources are typically limited under the best of circumstances. These jurisdictions must develop plans that address succession planning, redundant communications, and alternate site needs for their communities to face increasingly frequent threats. This tuition free course will expose participants to the benefits of developing continuity of government plans for rural communities with special focus on succession planning, delegation of authority, redundant communications, and alternate facilities.

### **L-0363: Multi-Hazard Emergency Planning for Higher Education**

**Rivier University**

July 12-14, 2022 0800-1700

To provide institutions of higher education with knowledge and planning strategies to better protect lives, property, and operations more effectively and efficiently within the context of comprehensive emergency management.

### **AWR-313 Homemade Explosives: Awareness, Recognition, and Response (HME)**

**Concord, NH**

August, 1, 2022

[https://prd.blogs.nh.gov/dos/hsem/?page\\_id=561&ee=1330](https://prd.blogs.nh.gov/dos/hsem/?page_id=561&ee=1330) **REGISTRATION NOW OPEN**

The HME course provides first responders with information on general explosive characteristics and hazards, homemade explosive precursor materials, homemade explosive manufacturing indicators, and Improvised Explosive Device (IED) components. Additionally, the course teaches first responders how to identify a homemade explosive laboratory and how to establish scene safety and security in such an incident. First responders are also presented information regarding community awareness and education programs related to homemade explosives. This information better prepares first responders to recognize hazards associated with homemade explosives during response operations.

### **MGT-324 Campus Emergencies Prevention, Response, and Recovery**

**Rivier University**

August 9-10, 2022 0800-1700

<https://train.ncbrt.lsu.edu/Student/Register?ClassID=29345> **Access Code NCBRT324**

This course provides participants with an understanding of and ability to navigate through the difficult aspects of dealing with campus emergencies involving natural or manmade events, including acts of violence. The course consists of small, problem-based, integrated group activities that require a coordinated, integrated approach to solve. Through tabletop scenarios, course participants will observe a developing incident and respond in a manner consistent with currently established campus and jurisdictional emergency operations procedures.

### **AWR-136 Essential of Community Cyber Security/MGT-384 Community Cyber Security Cyber Incidents**

**Concord, NH**

September 8-9, 2022

**Registration Coming Soon**

These trainings are being combined into a comprehensive two day course The Essentials of Community Cybersecurity (ECCS) course provides individuals, community leaders, and first responders with information on how cyber-attacks can impact, prevent, and/or stop operations and emergency responses in a community. The course also provides a cursory introduction to

cybersecurity vulnerabilities, risks, threats, and countermeasures. It explains vulnerabilities of computer systems and networks and how these vulnerabilities can affect communities, organizations, and daily workplace operations. The course introduces actions communities can take in establishing a cybersecurity program. Community Preparedness for Cyber Incidents, is designed to provide organizations and communities with strategies and processes to increase cyber resilience. During this 12-hour course, participants will analyze cyber threats and initial and cascading impacts of cyber incidents, evaluate the process for developing a cyber preparedness program, examine the importance and challenges of cyber related information sharing and discover low to no-cost resources to help build cyber resilience.

May 18, 2022 1:00-3:00 PM EDT

[CISA Active Shooter Preparedness Webinar - Region 1 - CT/MA/ME/NH/RI/VT Registration, Wed, May 18, 2022 at 1:00 PM | Eventbrite](#)

The Cybersecurity and Infrastructure Security Agency, Region 1 (Connecticut, Massachusetts, Maine, New Hampshire, Rhode Island, Vermont) invites you to join a two-hour security webinar to enhance awareness of and response to an active shooter event. Preparing employees for a potential active shooter incident is an integral component of an organization's incident response planning. Because active shooter incidents are unpredictable and evolve quickly, preparing for and knowing what to do in an active shooter situation can be the difference between life and death. Every second counts.
