

Virtual Road Trip:

Charting New Territory:

Building our Statewide Oral Health Plan in the COVID Era

The NH Oral Health Coalition is planning virtual meetings throughout the state to update the ***NH Oral Health Plan***. Dentistry is evolving rapidly in response to the COVID-19 pandemic. New technologies and clinical practices are emerging, which should be discussed in view of the Oral Health Plan.

- ✓ Participants will review the priorities, objectives, and strategies outlined in the Plan and provide information about their current oral health projects and strategies.
- ✓ Information gathered will be used to inform the development of an update to the Plan to guide the state over the next five years.

The overview section of these meetings will be the same, but regional issues will differ with each session. **Sign-up for the session coming to the North Country!**

Session 3: Focusing on the North Country

Thursday, September 17, 2020

11:30 AM - 1:00 PM

Register Online: <https://bit.ly/NorthCountry-OralHealthPlan>
