

Learn to Better Support our NH Families

– free support for teachers and agencies seeking to implement
Community Health Workers (CHWs) and Care Managers –

To help support the development of our youngest residents, North Country Health Consortium (NCHC) is offering various **free virtual trainings to teachers and agencies** to learn – or build on your interpersonal communication skills with families and other professionals.

This year's trainings include Adverse Childhood Experiences (ACES), Motivational Interviewing (MI), Managing Compassion Fatigue, and a 3-Part Mini Conference.

We're offering free technical assistance and peer support to teachers and agencies!

Peer Support Zooms

Working with young families can be a fulfilling job, but it can also be difficult, especially if the family is going through tough times. Our **Peer Mentorship** program can help you connect with other professionals who have experience in this field. This can be a way to **share concerns, solve problems, and support each other**. It's also a chance to meet others who understand the responsibilities of this job and can provide valuable insights.

Peer Mentorship can help people learn about new approaches, improve their skills, and find resources to help them in their work.

Our Peer Mentorship facilitated monthly meeting is from 9-10am on the fourth Tuesday of each month starting on April 25th. **SIGN UP HERE TO JOIN.** (https://nchcnh.info/PeerZoom_SupportNHFamilies)

Technical Assistance

We help organizations in NH that work with young families and children 0-8 by providing free technical assistance. This can include programs in different settings – such as schools or community centers – that **focus on early childhood development.**

We can help with different aspects of running a program, including **creating an intake system, hiring employees, training staff, supervision, management, and more.**

NCHC is the home of the Northern Area Health Education Center (AHEC) and we've been providing training to become, advance, and manage Community Health Workers since 2015.
