

# Grafton County Nursing Home

Grafton County Nursing Home is a 135 bed skilled nursing facility, providing short term rehabilitation and long term care. Our focus and expertise are with the geriatric population. We have a dedicated high functioning Alzheimer's Unit of 30 residents. Our rehab department works closely with our restorative nursing department. Students interested in gerontology, geriatric practice or long term care specialization would benefit from a rotation at GCNH. We often have students from various local educational institutions. Our environment is constantly evolving and very dynamic.

**Types of Students:** Nursing, Social Services, Dietitian, Rehabilitation, Health Information Management.

**Type of Rotation:** Geriatric

# The Molar Express

The Molar Express is a program of the North Country Health Consortium. They are New Hampshire's only mobile dental clinic. The Molar express visits schools, nursing homes and holds community clinics in several locations throughout the North Country. Their mission: "to provide oral health services to all ages. We believe that by providing access, preventative dental services and education on good oral care, we can improve the health of people in Coos and Grafton counties." The Molar Express truck can provide services typically found in any general dental practice including: diagnostic and preventative care (screenings, digital x-rays, cleaning, sealant applications, fluoride treatments and oral examinations), treatment (fillings and extractions) and minor oral surgery.

**Disciplines:** Dental Hygienist and Dentist.
