NH DHHS COVID-19 Update – April 16, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

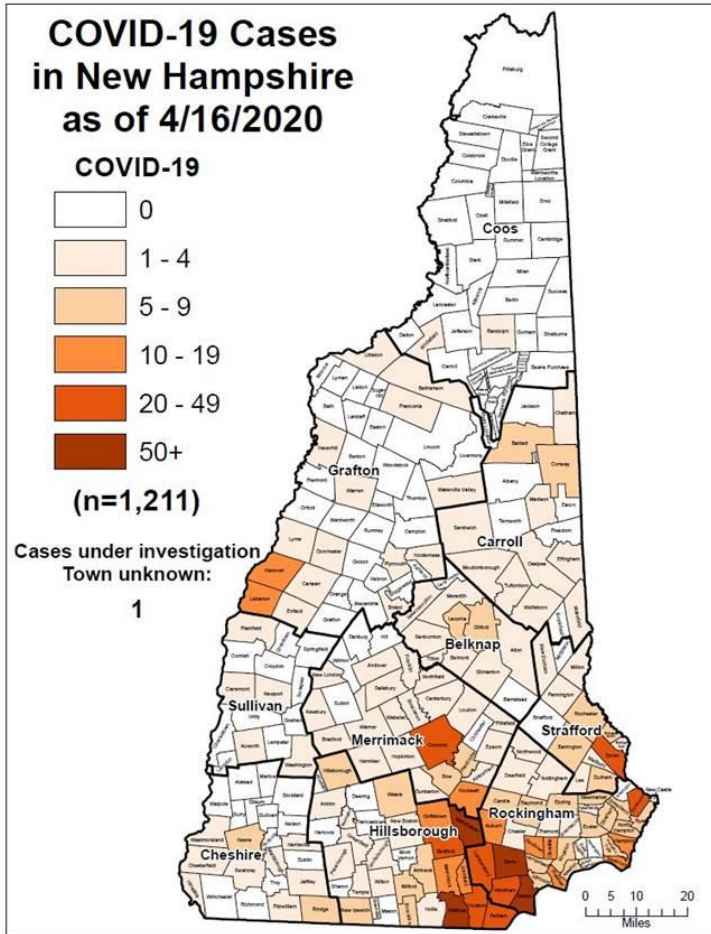

On Thursday, April 16, 2020, DHHS announced 71 new positive test results for COVID-19. There have now been 1,211 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Any additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, 55% are female and 42% are male, with one female and one male under the age of 18 and the rest adults. The new cases reside in Rockingham (33), Strafford (7), Hillsborough County other than Manchester and Nashua (4), Merrimack (4), and Sullivan (1) counties, and the cities of Manchester (13) and Nashua (8). The county of residence is being determined for one new case.

Nine new hospitalized cases were identified for a total of 187 (15%) of 1,211 cases. Nine of the new cases have no identified risk factors. Community-based transmission continues to increase in the State and has been identified in all counties with cases. Most of the remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has also announced two additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- One female resident of Hillsborough County, 60 years of age or older
- One male resident of Rockingham County, 60 years of age or older

Current Situation in New Hampshire
