NH DHHS COVID-19 Update – April 4, 2020

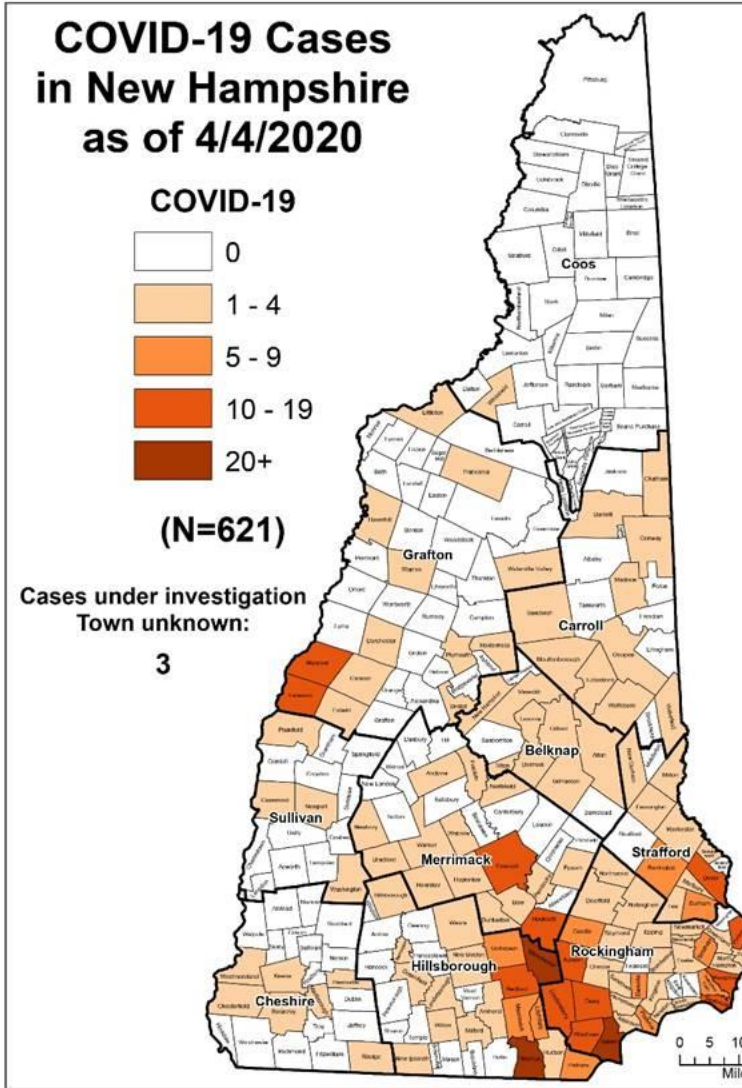

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Saturday, April 4, 2020, DHHS announced 81 new positive test results for COVID-19. There have now been 621 cases of COVID-19 diagnosed in New Hampshire.

Several of the new cases are still under investigation. Future updates will include additional information from those case investigations. Of those with complete information, all are adults with 55% being female and 46% being male. The new cases reside in Rockingham (26), Hillsborough County other than Manchester and Nashua (6), Merrimack (4), Strafford (4), Belknap (3), Grafton (3), Cheshire (1), and Sullivan (1) counties, and in the cities of Manchester (23) and Nashua (7). The county of residence is being determined for three new cases. Six new COVID-19-related hospitalizations were reported; thus far, 86 (13%) of the 621 positive cases have been hospitalized. Twenty-two of the new cases have no identified risk factors. Community-based transmission continues to increase in the State and has been identified in all counties with cases. Most of the remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has also announced two additional deaths related to COVID-19. These were both male residents of Hillsborough County who were over 60 years old. We offer our sympathies to the family and friends.

Current Situation in New Hampshire

County	Cases
Belknap	17
Carroll	17
Cheshire	10
Coos	1
Grafton	41
Hillsborough - Other	74
Hillsborough - Manchester	97
Hillsborough - Nashua	60
