NH DHHS COVID-19 Update – June 16, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Tuesday, June 16, 2020, DHHS announced 27 new positive test results for COVID-19. There have now been 5,364 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Please note that 8 previously announced cases have been determined to be out of state residents and have been removed from the case count. Of those with complete information, all are adults with 50% being female and 50% being male. The new cases reside in Rockingham (6), Hillsborough County other than Manchester and Nashua (3), and Cheshire (2) counties, and in the cities of Manchester (8) and Nashua (8).

Two new hospitalized cases were identified for a total of 521 (10%) of 5,364 cases. Two of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has announced 6 additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Hillsborough County, under 60 years of age
- 3 male residents of Hillsborough County, 60 years of age and older
- 2 female residents of Hillsborough County, 60 years of age and older

DHHS has also issued visitation guidance to help long-term care facilities safely resume family visits. The guidance can be accessed at <https://www.dhhs.nh.gov/dphs/cdcs/covid19/documents/lctf-visitation-06132020.pdf>.
