NH DHHS COVID-19 Update – July 3, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

Please note that there will not be a daily update on Saturday, July 4 due to the federal holiday. To provide current cases, hospitalizations and demographic data, the COVID-19 Summary Dashboard (<https://www.nh.gov/covid19/dashboard/summary.htm>) will be updated on July 4 at 6:00 pm.

On Friday, July 3, 2020, DHHS announced 38 new positive test results for COVID-19. There have now been 5,857 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Of those with complete information, there are six individuals under the age of 18 and the rest are adults with 50% being female and 50% being male. The new cases reside in Rockingham (11), Hillsborough County other than Manchester and Nashua (3), Merrimack (3), Strafford (2), Belknap (1), and Grafton (1) counties, and in the cities of Manchester (12) and Nashua (4). The county of residence is being determined for one new case.

Two new hospitalized cases were identified for a total of 569 (10%) of 5,857 cases. Three of the new cases have no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have had close contact with a person with a confirmed COVID-19 diagnosis, recently traveled, or are associated with an outbreak setting.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Hillsborough County, 60 years of age and older

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated July 3, 2020, 9:00 AM)

NH Persons with COVID-19:	5,857
Recovered	4,597 (78%)
Deaths Attributed to COVID-19	376 (6%)

Total Current COVID-19 Cases	884
Persons Who Have Been Hospitalized for COVID-19	569 (10%)
Current Hospitalizations	27
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) ₂	123,749
Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests ₂	20,057
Persons with Specimens Submitted to NH PHL	32,359
Persons with Test Pending at NH PHL ₃	727
Persons Being Monitored in NH (approximate point in time)	3,475

₁Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

₂Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

₃Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.

Number of Tests Conducted by Date of Report to NH DHHS

Polymerase Chain Reaction (PCR) Tests								
Testing Laboratory	6/26	6/27	6/28	6/29	6/30	7/01	7/02	Daily Average
NH Public Health Laboratories	538	111	534	292	391	455	558	411
