ArchProCoding has developed a training course on **clinical documentation, professional coding, and compliant medical billing** for Substance Use Disorder/Opioid Use Disorder (SUD/OUD) treatment services with a focus on Medication-Assisted Treatment (MAT). This educational session will focus on **maximizing reimbursement** for SUD/OUD treatment and primary care and mental and behavioral health encounters.

Benefits from participating in this training include:

1. Understanding the roles of each team member and their relationships in the coding/billing process

2. Determining service code billing options based on payer requirements

3. Learning about services that can be billed between patient visits

4. Learning how to increase evaluation and management (office visit) reimbursement opportunities

AUDIENCE

The audience for this training includes Rural Health Clinics (RHCs), Federally Qualified Health Centers (FQHCs), Critical Access Hospitals (CAHs), mental health care providers, and primary care organizations and others that provide SUD/OUD screening, MAT services, and behavioral health
